Digital Learning

Changing the world through digital experiences

LEARN HOW TO CURATE AND AGGREGATE DIGITAL CONTENT FOR 21ST CENTURY LEARNING

Monday, July 22nd

### Using Social Networks to Curate & Aggregate Digital Content

Day one will offer participants background information and the essential tools on how to use Social Networking to set up a multi-platform, personal learning environment. Digital tools will include Facebook, TodaysMeet, Google Moderator, Twitter, Paper.li Scoopit and Google+. During each of the hour long 4 in-service sessions participants will learn how to maximize a personal learning network for Curating and Aggregating digital content within specific disciplines of learning interest. Demonstrations and activity guides will be provided as a resource for instructional use throughout this daylong event.
