# TECH-KNOW-MADIC

**LEARN HOW TO CREATE REPOSITORIES OF COLLABORATION WHERE DIGITAL CONTENT IS STORED & RESOURCED**

## Tuesday, July 23rd
### Constructing Repositories of Learning

Day two will provide participants with resources and digital tools to create collaborative repositories of learning. These repositories of learning are useful for creating problem and project based units of study. Participants will learn how to set up and edit a wiki for collaborating and storing digital artifacts by using various plugins which includes html coding. Google Sites will be highlighted as a blogging source in an open and safe learning environment that is both static and collaborative. Key concepts in this session will also include how to set up an design a Weebly as an avenue for a flipped classroom.

**WEBSITE DEVELOPMENT**

**WIKI**

**BLOGGER**
