Check the top 10 Twitter hashtags for educators

1. #edchat - This is hashtag that was created by Tom Whitby, Steven Anderson and Shelly Terrell for all educators to connect and share their ideas on. Every Tuesday at 12:00 pm EST and 7:00 pm EST they have a discussion on a topic that is voted on the day before.
2. #mlearning - This is a great hashtag to follow if you're looking to incorporate mobile devices into your classroom. This feed will provide you with many ideas and connections with other educators doing similar things in their classroom.
3. #edtech - Under this hashtag you can find anything that has to do with technology in education. This is also a great place to find out about new web tools you can use with your students.
4. #ipaded - If you're an educator with an iPad (or looking for a good reason to buy one), check out #ipaded. This stream highlights many iPad apps that are ideal for education.
5. #education - Here you can find information on anything and everything related to education- from standardized testing to new technology for teachers.
6. #mathchat - Not only can you always find a tricky math problem that needs solving on this stream, but you can also connect with all types of math teachers who you can collaborate and share ideas with.
7. #scichat - If you're a science teacher you must check out #scichat. This stream will keep you up to date with everything happening in the science field, both related and unrelated to education.
8. #engchat - engchat takes place every Monday from 7-8:00 pm EST. Each week they cover a different topic that they highlight on [their website](#).
9. #sped -Technology is revolutionizing special education. Check out #sped to learn about how education is changing and what technology is making it happen.
10. #kinderchat... #6thchat - If you're looking for grade specific content and lessons for your elementary students, check out any of the following hashtags- #kinderchat #1stchat #2ndchat #3rdchat #4thchat #5thchat #6thchat.
